Higgins and his crew have been landed at Hamilton. They were rescued by the bark Loda.  
The Volusia was formerly the Ocean. She was built in England in 1871, and measured 1,033 tons gross. She was bought by the Philadelphia Steamship Company and rechristened in 1884. She got an American register because she had been repaired and refitted here to the extent of two-thirds of her value.

Ten ballots were taken. The first was 6 to 0, in favor of the plaintiff. A third ballot stood 9 to 3 in favor of the plaintiff. On the fourth ballot the jury was evenly divided, the vote standing 6 to 6. Six more ballots were taken all resulting 6 to 6.  
Words of Immigrants Coming.  
Commissioner Penner expects about 10,000 immigrants to land at Ellis Island this week from twenty-one steamships, three of which, from Mediterranean ports, have 2,500 Italian aboard.

### Sterling Silverware.

A CARD.

About a year ago certain jewelry and silverware dealers, alarmed by loss of business, in consequence of constantly increasing sales of their specialties by Department Stores, endeavored to cast odium by procuring indictments against their competitors for selling silver below the standard of .925, and since then, by advertisements and other methods, have loudly proclaimed far and wide their own moral purity.

Recent indictments showing that Certain Exclusive Jewelry and Silverware Dealers stand in exactly the same position toward the public as the Department Stores, a statement of facts is in order.

The Specialty Dealers CLAIM to manufacture the goods they retail. The Department Stores fairly state that they buy them. While the Specialty Dealers may make part of what they sell, they buy in the open market of the same houses as the Department Stores. BOTH SELL THE SAME GOODS!

How is it possible to account for difference in price at which identical articles have been sold? Is it because some of the Department Stores buy invariably for cash, while some of the Specialty Dealers take all the credit they can get? Or is it because the Department Stores are satisfied with less than half the profit? Be the reason what it may, the fact is nevertheless true that the Department Stores sell the same goods at far lower prices than the exclusive Jewelry and Silverware dealers.

We would not knowingly permit misrepresentation in regard to any article in which we deal. The silverware we buy and sell as "Sterling" is guaranteed to us .925 fine, and we ourselves, standing behind the guarantee, are as responsible as any Jewelry or Silverware firm in the City of New York, and have as high regard for honor and integrity.

The following goods were bought of and guaranteed to us by houses of reputation as "Sterling" .925 fine. They are sold at these prices for comparison in quality and value with any offered by any Jewelry or Silverware dealer in the City of New York.
